

27 September 1977

MEMORANDUM FOR: Office of Legislative Counsel

ATTENTION : [REDACTED]
FROM : [REDACTED]
Associate General Counsel

SUBJECT : Senator Huddleston's Letter of 19 September

1. This is with reference to Senator Huddleston's letter of 19 September requesting the Director to provide the Select Committee with "the Intelligence Community's definitions of" certain listed terms. Senator Huddleston indicates the definitions are wanted because of the Committee's interest in the introduction of legislation which would clarify the responsibilities of the intelligence agencies and because "of the importance of clear and precise definitions in such legislation."

2. [REDACTED] has furnished [REDACTED] a list of such definitions for use in responding to Senator Huddleston, a copy of which we've made available to you. [REDACTED] notes that the definitions have not yet been coordinated with the Community, which however he will accomplish at the earliest opportunity, but that the list was prepared by extracting pertinent definitions from existing legislation and regulatory materials.

3. We note that in the case of certain definitions from the Senator's list, for example definition numbers 3, 4, 5, 8, 9, 11, 14 and 25, at a minimum, authoritative definitions exist in Executive order, proposed Executive order, or NSCID form. It is our opinion that these definitions must presently be considered binding upon the Intelligence Community, in place of the definitions for those terms which are offered by [REDACTED]

4. With respect to the remainder, however, we believe [REDACTED] definitions, as he may modify them after further consultation with the Community, should be forwarded as the Intelligence Community's definitions of those terms, that is, those definitions indicate what the Community means by those terms. We suggest also however that the Director's reply to Senator Huddleston should emphasize that these definitions or at least many of them are not in statutory language. Further, it would be necessary for the Director and the Agency to study and consider proposed definitions in the light of the statutory contexts in

which the defined terms would appear. A given term could have one statutory definition for certain purposes and, quite properly, a different definition for other purposes.

3. Tony Lapham asked to see the proposed list before it is forwarded to the Director for signature.
